## TRAINING

- Bachelor's Degree in Software Engineering  
**Unicesumar**  
2025 - Current
- Computer Technician  
**E.E Modestino Andrade Sobrinho**  
2021 - 2022

## LANGUAGES AND FRAMEWORKS

- FRONTEND:** JavaScript, TypeScript, React, Redux, Angular, Tailwind.
- BACKEND:** Node.js, PHP.
- DATABASES:** MongoDB, MySQL
- TOOLS:** Figma, Git

## COURSES

- JavaScript Algorithms and Data Structures  
**freeCodeCamp.org**
- Complete Web Development Course  
**Udemy**
- Front End Development Libraries  
**freeCodeCamp.org**
- Back End Development and APIs  
**freeCodeCamp.org**

# Alan Tomaz

## FULL STACK DEVELOPER

## PERSONAL PROFILE

I'm a junior developer with a passion for creating modern interfaces and functional web solutions. I have experience with React, Angular and Node.js, as well as working with databases such as MongoDB and MySQL. I enjoy learning by doing, solving problems and working in a team. I'm always looking for new challenges that will help me evolve as a programmer.

## PROFESSIONAL EXPERIENCE

- Hz Telecom  
**Network and IT Technician**  
**May 2023 - Current**  
I worked in technical support focused on network infrastructure and system maintenance. During this period, I acquired intermediate knowledge about networks and their infrastructure, in addition to working on the configuration and maintenance of computers and systems.
- Eurocred  
**Frontend Programmer**  
**April 2025 - July 2025**  
I participated in the development of a contract management system, working from the interface design to the implementation of the frontend with React. I created reusable components and integrated functionalities with the application's API. I also performed the complete deployment of the frontend and backend layers on Ubuntu servers in the cloud.

## PROJECTS

- Financial Dashboard** (Angular + Node.js + MongoDB): Dashboard for viewing income and expenses. [Click to access the Link.](#)
- Inventory Control** (React+ Node.js + MongoDB): CRUD system with product and category control. [Click to access the Link.](#)
- News Generator** (Node.js): Script that searches and summarizes news using AI. [Click to access the Link.](#)
